REACTJS DEVELOPER

I have 3+ Years of work experience in **React.js** and **JavaScript** technology. I'm a dedicated front-end developer passionate about crafting dynamic and user-centric web applications.

TECHNICAL SKILLS

Frontend : **JavaScript, React.js, Hooks, Redux, HTML, CSS, Tailwind CSS, Storybook, SonarQube, ConextApi**

Dev Tools : **VS-Code, Git, Bit Bucket, CI/CD, Source Tree, Confluence Page, S3 Bucket, Jira, Microsoft Azure, Jenkins, GitHub**

EXPERIENCE

TCS – System Engineer (Oct 2020 – Present)

Project - 3

Apr 2023 - continue

Tech Stack:- React, React Hooks, ContextApi, Webpack, Sonarqube, Storybook

- *Developed a new look and feel for the existing One Suncorp portal for **AAMI, GIO**, and **Bingle** brands using ReactJS technology.*

- *Integrate the new design and features into the existing portal, ensuring compatibility and responsiveness across different devices and browsers.*

- *Improve the Policy section to streamline the process of managing policies and provide a more intuitive user experience.*

- *Update the Menu Button to accommodate a new feature in the navigation structure.*

- *Update the style guide prototype to reflect the new design and features based on UI/UX's team instruction.*

- *We used to write the test cases for every JS file, which covered **75% of the test cases**.*

- *Involved in the daily scrum meeting, User Story Grooming Meeting and Retro meeting and card analysis meeting for the defects*

- *Adhered to the Agile Methodology.*

Project - 2   *July 2022 – Feb 2023*

Tech Stack:- React, React Hooks, ContextApi, Webpack, Sonarqube, Tailwind CSS

- *Developing a card to display product information such as price, rating, and offer.*

- *Implemented the product detailing section, effectively presenting reviews and product information to users.*

- *Contributed to the development of a design system, ensuring consistency across UI components (buttons, dropdowns, breadcrumbs, etc.) used throughout the platform.*

- *Implemented performance optimizations, including lazy loading, shimmer ui and custom hook, reducing API calls and efficiently managing data using Redux.*

Project - 1   *Jan 2021 – May 2022*

Tech Stack:- ReactJS, Node.js, Bot Framework Emulator

- *We are designing Web chat and MS Chatbot*
- *Gathering the information from stake holder with Team Leader*
- *Enhancing Microsoft chatbot as per client requirement*
- *Design a specific tool as per MS team adaptive card*

EDUCATION

Dr. A P J Abdul Kalam Technical University Lucknow   *2019*
Master of Computer Application

M. G. K. V. P. Varanasi   **2016**
Bachelor of Computer Application

PERSONAL PROJECTS

Emoji   **SOURCE-CODE**   **LIVE DEMO**

- *Designed and developed a clean and modern website using **HTML, CSS, and ReactJS***
- *With help of Emoji interpreter to know the meaning of emoji*
- *Easy way to access*
- *Deployed on netlify*
